

AHMED RAYEN BOUAZIZI

Data Scientist • Machine Learning Engineer

Tunisia | arayen138@gmail.com | GitHub: rayen-feb | Portfolio: rayen-feb.github.io/cv-site

Seeking a 6-month PFE (final-year) internship, starting December 2026 • Open to international and remote opportunities

PROFILE

Final-year Data Science Engineering student at ESPRIT University, specialized in machine learning, deep learning, and computer vision, with applied experience in NLP, predictive analytics, and AI-driven automation. Builds end-to-end ML systems, from data preprocessing and model training to production deployment, and has founded and scaled an AI product (FactuScan) to 30+ active clients. Seeking a 6-month Data Scientist internship to contribute to a production-grade ML team.

KEY STRENGTHS

- End-to-end ML ownership: from EDA and feature engineering to model training, evaluation, and deployment.
- Applied AI product building: founded and scaled FactuScan, an OCR-based SaaS platform, from prototype to 30+ active SME clients.
- Cross-domain modeling experience in computer vision, NLP, time series, and predictive analytics, with production deployment (mobile and web) in two of these projects.

PROFESSIONAL EXPERIENCE

Junior Data Analyst / Engineer | IGAS IT (Tunisia / France)

September 2025 – Present

- Built Power BI dashboards and ML-integrated reporting workflows for enterprise clients (FirstLocation, AutreBoulangerie), including ETL pipelines and DAX modeling.
- Bridged data science and business intelligence by feeding ML model outputs into client-facing dashboards.
- Implemented cloud-based BI solutions and optimized reporting pipelines, improving reporting efficiency by 20%.

Founder & Developer, FactuScan (SaaS OCR Platform) | Freelance

January 2025 – Present

- Built a custom PaddleOCR + Flask pipeline for automated invoice scanning and structured data extraction, cutting manual data entry by 40% for SMEs.
- Owned the full product lifecycle (architecture, development, deployment, client onboarding), scaling the platform to 30+ active clients.

Data Science Intern | Agricultural Analytics Lab

2024

- Built ML models for crop-yield prediction; developed dashboards that improved resource allocation by 15%.

Research Assistant | ESPRIT University

2024 – 2025

- Contributed to time-series forecasting and anomaly detection projects; presented findings at student research conferences.

SELECTED PROJECTS

- Tunisian Sign Language Recognition** — End-to-end CNN-based computer vision pipeline for real-time gesture recognition, deployed as a mobile application that translates Tunisian sign language into text for any user.
- Student Performance Prediction** — Gradient Boosting regression system ($R^2 \approx 0.85$) predicting academic outcomes from 1,000+ student records, with 31 engineered features and client-side deployment.
- Soil Fertility Prediction** — End-to-end ML pipeline (Random Forest) recommending fertilization strategies from soil composition data to optimize crop yield.
- Cancer Detection (Deep Learning)** — Proof-of-concept CNN-based medical image classification pipeline with data augmentation, exploring early-stage detection patterns as a research prototype.
- Tour de France ML Analytics** — Predictive analytics system modeling rider fatigue and race outcomes using regression and ranking techniques.

CORE SKILLS

Machine Learning & AI: Scikit-Learn, TensorFlow, PyTorch, Keras, Deep Learning, Computer Vision, NLP, Generative AI

Data Engineering & Analysis: Python, R, SQL, Pandas, NumPy, EDA, Feature Engineering, ETL Pipelines

MLOps & Deployment: Docker, CI/CD, Flask, REST APIs, Cloud (AWS, GCP), Git

Data Visualization & BI: Power BI, Tableau, Plotly, DAX, KPI Dashboards, Matplotlib, Seaborn

EDUCATION

ESPRIT University, Tunisia — Engineering Degree in Data Science (Final Year)

Specialization: Machine Learning, Predictive Analytics, AI, Data Engineering, Cloud Deployment

CERTIFICATIONS

TensorFlow Developer Certificate • Microsoft Power BI Data Analyst Associate • AWS Machine Learning Specialty

LANGUAGES

Arabic: Native • French: Professional Working Proficiency • English: Professional Working Proficiency
